

Mobilise

End age discrimination
in disability benefits

Case Study Form

It is vital that the *Mobilise* campaign is able to give real examples of the effects that age discrimination in Disability Living Allowance (DLA) has on everyday lives.

We are very keen to hear about *your* experiences of living with or without Disability Living Allowance, especially if you might be prepared to speak out in public about your situation.

We want to hear from you if you have been denied Disability Living Allowance (DLA) because of your age: how has this affected you? Or perhaps you are amongst those older people who started receiving DLA earlier in life: how do you use the money you receive and what difference does it make to your life?

Please let us know if you would be happy to share your experiences with the media. We would not give your name out to anyone without checking with you first, but would keep your details on file and contact you to talk you through the process when we receive enquiries from the media.

Finally please do not be put off by the final part of this form, which we are obliged to add in order to comply with the Data Protection Act. This is merely to reassure you that any information you give will be treated correctly.
